

Objective of WP 1

Develop and implement a test version of a master program in Sustainable Shipping on postgraduate level.

Vasco Da Gama Training for Greener and Safer Maritime Transport

www.vasco-da-gama.eu

Deliverables

A high-quality cross-national master programme in Sustainable Shipping at an advanced level.

An initiative to meet the demand for safety and environmental awareness in the future of shipping.

A foundation for shared view on future MET at post-graduate level.

A transnational programme, encouraging teacher, staff and student exchanges from different Universities and countries.

This project is co-funded by the European Union

Main Steps

Task 1-3: Prepare cross-national agreements on important issues for the WP 1 (February to July 2014).

Task 4-5: Complete curriculums, decide on organization of master programme.

Task 6. Implementation of the programme (one semester).

Task 7: Evaluation of the project and preparation of the final report.

Task 8: Workshop, final conclusions
